6 DESCRIPTION AND CHARACTERIZATION OF ACTIVITIES (RELATIONSHIP WITH THIRD PARTIES)

6.1 GENERAL GUIDELINES

6.1.1 This Policy establishes rules for carrying out checks prior to hiring Third Parties, with the aim of identifying any involvement in irregular practices that could in any way negatively impact the Iguá Group. It also determines the conduct to be followed throughout the relationship with Third Parties, with a view to ensuring compliance with Iguá's principles and values.

6.1.2 In particular, it is the responsibility of Collaborators in management positions to disseminate this Policy to their staff, disseminating its content and seeking to ensure full compliance.

6.2 SPECIFIC GUIDELINES

6.2.1 Iguá believes that it is essential to draw up and implement a process for contracting Third Parties and that all Collaborators are aware of it.

6.2.2 Collaborators of the Iguá Group may not personally benefit from a relationship with another individual, institution or organization.

6.3 SELECTION OF THIRD PARTIES - DUE DILIGENCE:

6.3.1 The requesting department, together with the Procurement Department, must define the premises, requirements and technical and professional qualifications expected of the service and/or product to be contracted. Once the qualifications have been defined, potential Third Parties will be selected, in accordance with the Iguá Group's Procurement Policies (PI-COR-SUP-002- Policy for Purchasing Materials and Contracting Services).

6.3.2 Before defining the chosen supplier, the Requesting department must evaluate and approve:

- The technical capacity of the services to be provided and the quality of the products to be purchased.
- Whether the remuneration to be paid to the Third Party is in line with the service that will be provided or the product that will be supplied, taking into account usual market practices.
- Preference for local suppliers.
- Intolerance of any conduct by contractors that violates human rights.

6.3.3 Contracts that are mandatory according to PR-COR-CPL-001 - Due Diligence Procedure must undergo due diligence analysis by the Compliance area.

- 6.3.4 The Compliance area will assess the risks of corruption, reputation and integrity of the Third Party, its partners and shareholders, through media research and registration in public government registers.
- 6.3.5 It is not recommended to hire Third Parties who appear on government registers, as the sanctions applied to them may have the effect of restricting the Iguá Group's right to take part in tenders or enter into contracts with the Public Administration. In addition, it is not recommended to hire a Third Party who has been convicted of corruption or other illegal acts, or who does not agree with the principles and values of the Iguá Group.
- 6.3.6 If the Procurement area identifies the need to analyze the supplier, even if the value of the contract is less than the mandatory analysis threshold, it can forward the Due Diligence request to the Compliance area.
- 6.3.7 Once the integrity analyses have been carried out, the Compliance department will issue its opinion with the appropriate prohibitive or mitigating recommendations.
- 6.3.8 The research report must be attached by the requisitioner to the supplier's documentation.
- 6.3.9 If Compliance's recommendation is unfavorable to contracting the supplier, the requesting department must assess the risk of contracting or initiate a new BID in the market.
- 6.3.10 If the decision of the requesting area is to assume the risk of contracting the supplier, contrary to the recommendation of the compliance area, the continuation of the contract must be justified and follow the approval levels of PR-COR-CPL-001 - Due Diligence Procedure.
- 6.3.11 For future negotiations on blocked list of Third-Party Due Diligence, a new Due Diligence analysis will be required.
- 6.3.12 All information collected during Due Diligence analyses must be treated with confidentiality and secrecy by the Compliance area and others involved.
- 6.3.13 If there are any doubts about the results of the surveys, the Compliance Area should be consulted at e-mail: compliance@iguasa.com.br.

The questionnaire will complement the Due Diligence in assessing the Third Party.

- 6.4.2 The answers will allow the Compliance Department to identify the risks related to your hiring, in addition to those found in the Integrity Due Diligence.
- 6.4.3 Third parties that present documentation of their own Integrity Program, proving that it has been implemented and is in effective operation, will be given priority in a contracting process over those that do not. The procurement area will be responsible for informing the compliance area about the existence of the Compliance and Integrity Program, which will prioritize its integrity analysis over the other traders under analysis.

6.5 HIRING THIRD PARTIES

- 6.5.1 Contracts with Third Parties must be formalized through written contracts, in accordance with the guidelines set out in PI-COR-SUP-002 - Purchasing Policy, and verbal contracts are not allowed unless accompanied by a purchase order.

- 6.5.4 Non-standard contracts, contract amendments and/or changes to standard contract drafts must be sent to the Legal Department for formal validation.
- 6.5.5 If the contract is essential for Iguá's business and there is no possibility of concluding a written contract, the Procurement area should check with the Legal area on the best way to formalize the contract.
- 6.5.6 Situations in which a conflict of interest may arise in the hiring of Third Parties must be reported to the Compliance area, by e-mail to compliance@igua.com.br, via a ticket in the "Service Now" system, or via FO-COR-CPL-001 - Third Party Evaluation Questionnaire or FO-COR-CPL-002 - Integrity Questionnaire.

For Third Parties that do not have a contract, changes to the remuneration or payment method must be formalized by e-mail between the buyer and the Third Party, with the respective approval of the Requesting Area, and then summarized in the purchase order.
